- Elmi, Afyare Abdi. 2010. Understanding the Somalia conflagration: identity, political Islam and peacebuilding. London: Pluto Press. <UB online> [*This book is worth reading for at least two main reasons. First it offers an insider's point of view since Professor Afyare Abdi Elmi, though educated in Western universities, shares and conveys Somali culture and values, in other words Somali identity. Second, because the author not only deals with the features of the Somali war, but he also discusses its possible solutions [...]. Throughout the chapters of his book, Elmi quotes opinions of various Somalis he interviewed in order to corroborate his hypothesis. Although his use of primary sources obeys to a more journalistic than essayistic methodology, nonetheless the rich bibliography demonstrates Elmi's interdisciplinary approach to the matter, making extensive use of secondary sources, with references going from the US policy in Somalia to peace-building education, from governance and government to conflict studies.* In: *Cadernos de Estudos Africanos*, 25 | 2013, 213-214.]

Nevertheless, Harper's concern is not to write an 'academic text' but to present a series of 'pictures' of Somalia. In this, she succeeds: the book's strength is the personal testimony, life stories and anecdotes that come from Harper's many interviews with Somalis and from her own experiences there.*]
